

100 MINUTES OF MATH™

# First In Math® Spring Baseball Challenge!

**FIRST IN MATH®**

BUILDING THE M IN STEM™

## Batter Up!

Who's ready to hit a Home Run on the First in Math site!

For each 25 minutes you spend playing and earning stickers, cut out one BASEBALL and glue or tape it on top of a base. Start out at First Base, and work your way around the bases to Home Plate!

When you have completed all the bases you will have practiced your math skills for 100 MINUTES - and have proven yourself to be a 100 Minutes of Math™ Challenge Champ!

(No printer? You can still challenge yourself by playing for 100 Minutes to earn stickers for your school Team!)
