Player Of The Day (Jugador del dia)

Each morning, your Team's PLAYER OF THE DAY is displayed on your Teacher's Homepage. The student who earned the most stickers during the previous 24-hour period is the POTD! (Cada mañana, el JUGADOR DEL DÍA de su equipo se muestra en la página de inicio de su maestro. ¡El estudiante que obtuvo más calcomanías durante el período anterior de 24 horas es el POTD!)

What is the purpose of the Player HUB? (¿Cuál es el propósito del Player HUB?)

Icons on the HUB can guide you through the program in a systematic order - or you can freestyle! Click the yellow icon (Just The Facts) because it is a great way to know if you need help with addition, subtraction, multiplication or division facts. If you do need help in certain areas the VIFs and GYMS should be your next stop. After those have been completed proceed to other modules clockwise around the HUB—or at any point in the process play BONUS GAMES or the SKILL SET module based on the popular 24® Game. (Los íconos en el HUB pueden guiarlo a través del programa en un orden sistemático, ¡o puede hacer freestyle! Haga clic en el ícono amarillo (Just The Facts) porque es una excelente manera de saber si necesita ayuda con la suma, resta, multiplicación o división. Si necesita ayuda en ciertas áreas, los VIF y GIMNASIOS deberían ser su próxima parada. Una vez que se hayan completado, continúe con otros módulos en el sentido de las agujas del reloj alrededor del HUB, o en cualquier momento del proceso, juegue BONUS GAMES o el módulo SKILL SET basado en el popular juego 24®.)

Get a FamilyLink® login, FREE! (Obtenga un inicio de sesión de FamilyLink®, GRATIS)

With a FamilyLink® login, a parent, grandparent or sibling can use First In Math! Your FamilyLink User ID appears on the student Homepage in the lower-right corner. FamilyLink players have full access to site content 24/7. Try 10 or 15 minutes of math exploration each day! (¡Con un inicio de sesión de FamilyLink®, un padre, abuelo o hermano puede usar FIM! Su ID de usuario de FamilyLink aparece en la página de inicio del estudiante en la esquina inferior derecha. Los jugadores de FamilyLink tienen acceso completo al contenido del sitio 24/7. ¡Prueba 10 o 15 minutos de exploración matemática cada día!)
